# SITUATION

Bryan, who is the eldest son in his family, is dependent on his job for financial support. Unfortunately, after COVID-19, his father lost his job. He can only look for more sources of money as a result. He begins to charge high prices for subpar products on online platforms including Shopee and Lazada.

As a result of this situation, he needs extra time for his online business. During class time, he always publishes his products and responds to customers. After school, he has to deliver his package to the post office which is far away from his university. He lost his academic standing for a long time as a result of his income-seeking. When assignments are given in his group, he acts as a free rider. He also copied his friend's answer on the test.

# BACKGROUND

## CONFLICTS

In this situation, Bryan is faced with two conflicting situations where he must work hard to pay his fee at the university or focus on his studies but lack the funds to cover his living expenses.

## GUILTY

Bryan knows that this is against his morals, but he needs the money to provide for his family.

## BENEFITS

He can earn more money by selling products online from anyplace at any time. Therefore, this is a better part-time job for him.

## DECISION

Even though Bryan realizes it is a bad idea and will use his study time, he begins to make a lot of money selling subpar products online. However, he can only do this to support his family.

## SOLUTION

However Bryan realizes that selling subpar products online for high prices is the only way to make a lot of money quickly.

# LOST OF VALUES

## TRUSTWORTHINESS

Bryan is losing credibility since he is not being truthful with his customers. He is selling his items at a higher price even though he knows they are subpar and not worth the price he is charging. He loses his customers' trust by doing this since they think they are getting a reasonable price on a high-quality product. This could harm his credibility and make it more difficult for him to win over customers' trust in the future.

## HONESTY

Bryan lost his honesty as he acts like a free rider in group assignments due to the online business. He is always chatting and delivering packages to customers, which results in him having little time to meet with his groupmate for an assignment.

He might still receive the same grade as his groupmate. These actions show his lack of honesty when he submitted the assignment even though he didn't finish it.

2023 | @INTEGRITY

## SELF-ESTEEM

When Bryan finds himself needing more money to maintain his family, he begins to lose self-esteem in himself. He started acting in a way that went against his ethics and integrity. For instance, Bryan copied his friends' test answers and sells subpar products online. Bryan feels guilty about it, but his online business prevents him from having time to study for his exam.

# UNiVERSAL VALUES

## HONESTY

The most important ethical principle is honesty. People of honor frequently have a connection with honesty. Honest people are also admired and trusted by us. Therefore, Bryan should be honest with his customers. He must tell the truth about his products and have a reasonable price to sell to customers.

## COOPERATION

Working together to achieve common objectives is called cooperation. When working in groups, people look for solutions that will benefit the group as a whole as well as themselves. Hence, Bryan must manage his time wisely to cooperate with his team members to attend the meeting and give some responses. In this action, they will work together to achieve the same target.

## RESPONSIBILITY

Being responsible means having control of our decisions as well as our life. It means taking accountability for our actions and identities. Being responsible includes realizing that our actions and inactions carry results. Bryan came to realize as a student that he had responsibilities to fulfill when collaborating on group projects. Besides that, in order to do excellently on the exam, he must also put in a lot of study time.

# BRAINSTORMING

**HELP SUPPORT**  
Bryan may apply for government financial help in order to be able to get study loans like PTPTN or scholarships. As a result of this, Bryan's burden may be reduced without compromising his morals.

## OTHER OPPORTUNITIES

Bryan doesn't have to waste time traveling if he looks for a part-time job at his university. He may more easily do the work after class and spend more time studying, which is one of his responsibilities as a student.

## HONEST CONVERSATION

Bryan needs to have an honest conversation with his lecturer to inform them of the situation that he found himself in. Therefore, he can ask his teacher to give him more time to turn in the work. As a result, Bryan has more time to complete his task with teammates to complete this assignment.

### 1. REFLECTION ON CONFLICTS

Bryan faced the need to make a decision between working to support his family and focusing on his studies. But in order to get more money quickly, he sells subpar products and gives up his studies, which is acting against his moral principles.

### 3. POSSIBLE SOLUTIONS

Bryan could focus on his academics by looking for scholarships or study loans like PTPTN to get over this issue. In addition, he had the option to speak with his lecturer and share his worries regarding his family. Therefore, he could benefit from advice and support from his lecturers. His actions are essential to his integrity and self-esteem.

### 2. VALUES

The final result of this choice significantly affected Bryan's honesty and sense of self-worth. His acts of selling subpar products and taking advantage of others in group assignments made him feel bad and ashamed.

### 4. OVERALL

In conclusion, sacrificing one's integrity and morals in order to obtain money can result in a serious decline in one's morals and sense of self. Therefore, in order to maintain our integrity and morals, we need to consider our options carefully before acting.

# CONCLUSION

# SELF-REFLECTION

## REPORTING

Bryan currently has a choice between supporting his family and concentrating on his education, two opposing demands on his time.

Then, in trying to support his family, he gave up his education in order to focus on selling subpar products online.

## REASONING

I understand that Bryan's money troubles made him feel hopeless in this situation. However he needs to consider the long-term effects of his unethical action. If his lecturer discovers that he was cheating, he might not be able to complete his degree.

## RESPONDING

Instead of offering customers subpar products, I think Bryan has a lot of other options to consider. Being able to provide for his family is his main goal. He may thus look for other ethical options, including study loans and scholarships.

## RELATING

This reminds me of a moment my friend who comes from a family of five brothers and sisters. She began working because of her financial situation, but she has not completed her secondary education. Therefore, she dropped out of school in order to pursue a full-time career.

## RECONSTRUCTING

I've learned that being dishonest to people in order to achieve my objectives is extremely unethical, and I am going to suffer a great deal in the future because of it. Even though I was able to achieve my aim, I will always feel guilty about what I did.

Thank You ^^
